Website: https://eduardomeza.vercel.app

Professional Summary

Frontend Developer with experience building modern, high-performance web applications using **React.js** and **Next.js**. Proven ability to lead the full development lifecycle of complex projects, from concept and **UI/UX design** to **backend API integration**, **database management**, and **CI/CD deployment**.

Full-Stack Project Leadership: Independently architected and delivered a full-stack web application for a lash salon, developing the frontend, backend, database, and a web mobile app. Engineered core functionality including scheduling systems and data management, deploying the complete solution within a 4-month timeframe.

Large-Scale Public Sector Modernization: Developing the frontend for a transformative state-wide platform modernizing the Department of Education's paper-based operations. This initiative integrates decades-old, disconnected analog systems from multiple non-communicating agencies into a single, efficient, digital ecosystem.

Technical Skills:

- **Frontend**: React.js, Next.js, Tailwind CSS, Redux, HTML5, CSS3, JavaScript, Chakra UI, Material-UI (MUI), Bootstrap, React Native
- **Backend**: Node.js, Nest.js, Express.js, RESTful API Development, Python.
- **Databases**: MySQL, MongoDB, Database Design & Management
- **Tools & Practices**: Git/GitHub, CI/CD Pipelines, Vercel, AWS, Agile Methodologies

Languages:

- English (Professional Proficiency)
- French (Elementary Proficiency)
- Spanish (Native Proficiency)

Work Experience

Frontend Developer & Technical Lead (Freelance) | Zacatecas State Department of Education
Zacatecas, México | January 2025 - Present
Project: **SIAPSEZ** (State-Wide Teacher Administration Platform Modernization)

- Inherited and completely overhauled a project after the initial vendor was dismissed, leading the technical assessment and architecting a new frontend strategy from the ground up using React.
- Develop and maintain core application modules for a platform modernizing decades-old, disconnected paper-based systems, serving the entire state's teacher workforce.
- Own end-to-end development of key features including the Login authentication system, main dashboard, side navigation menus, and critical administrative sub-apps for Payroll, Signatories, and System Administration.
- Engineer a responsive, accessible, and intuitive user experience that replaces inefficient manual processes, integrating seamlessly with backend services via RESTful APIs.
- Utilize CI/CD pipelines for efficient testing, deployment, and feature delivery in a large-scale, agile environment.

Full-Stack Developer (Freelance) | Lash Studio Application
Yucatán, México | March 2025 - July 2025
Project: **Hadassa Lash Studio**

- Independently architected, developed, and deployed a full-stack solution within a 4-month timeframe, comprising a web application, an admin dashboard, and a companion mobile web app for technicians.
- Designed and implemented the database schema, RESTful API, and business logic for complex scheduling, client management, and notification systems.
- Built the frontend with a focus on a modern UI/UX, ensuring a fluid and responsive experience across web and mobile platforms.
- Managed the entire deployment lifecycle, configuring and maintaining the CI/CD pipeline for automatic updates.

Mobile Developer (Freelance) | Digital Signage Modernization
Yucatán, México | April 2025 - December 2025
Project: **Grupo SOL Yucatán**

- Engineered a custom React Native application to replace unreliable default software on digital signage hardware, enabling robust, looped video advertisement playback for a major newspaper client.
- Successfully troubleshot and integrated with device-specific hardware and display protocols, demonstrating adaptability in mobile and embedded development.
- Provide ongoing monthly maintenance and feature updates to ensure 99.9% uptime and performance reliability.

Frontend Web Developer & Technical Support | NXG Media (USA)
(Remote) | 2020 – 2024

- Developed and maintained responsive, functional websites for diverse client projects using a variety of technologies depending on the customers needs including Next.js , React, Vite, Tailwind CSS, HTML, CSS, JavaScript, and Bootstrap.
- Provided specialized technical support and feature development for a proprietary CMS by implementing customizations and bug fixes with Next.js (Express) and MySQL.

- Optimized database performance and ensured efficient system operation, enhancing the overall user experience and platform stability.
- Collaborated effectively within a professional, cross-functional team to deliver high-quality web solutions and reliable technical support.

Web Developer & ERP Support Analyst | Meridasoft (México)
Yucatán, México | 2019 – 2020

- Built responsive and visually appealing client websites utilizing HTML, CSS, Bootstrap, JavaScript, and the HubSpot platform.
- Provided critical support and maintenance for complex ERP systems built with PHP and Python, resolving technical issues and optimizing functionalities to ensure stable and efficient application performance.
- Contributed to the improvement of intricate systems, strengthening skills in full-stack development and complex problem-solving within a dynamic, collaborative environment.

Additional Experience

Mentorship and Open Source projects

Author of Lattice-Design | A Lightweight React State Management Library
GitHub: https://github.com/mezacanul/lattice-design

Designed and developed an innovative state management library for the React ecosystem that eliminates boilerplate code associated with traditional Context API and reducers. The library allows developers to define global singleton state objects (strings, arrays, objects, etc.) and access them in any component with a single, simple hook.

Web Development Tutor & Mentor | Independent
Mérida, Yucatán, México | January 2025 – December 2025

- Provided personalized one-on-one tutoring to 7 individuals on the fundamentals of front-end web development, including HTML5, CSS3, and JavaScript.
- Designed and adapted lesson content to fit different learning styles and paces, ensuring effective knowledge transfer and practical understanding.
- Fostered a supportive learning environment that empowered students to build their own basic web projects and continue their development journey.

Education & Professional Development

Meta Front-End Developer Professional Certificate | Coursera
Completion: Dec 2024

- A comprehensive program covering React, UI design, and version control.

Meta React Native Certificate | Coursera
Completion: Dec 2024

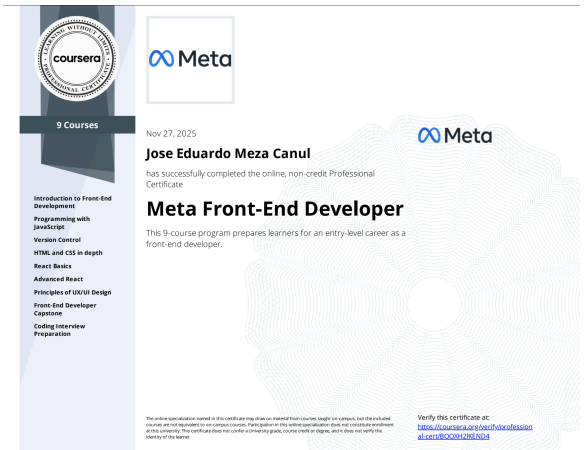
- Developed skills in cross-platform mobile development for iOS and Android, including integration of APIs (Axios), local data persistence (AsyncStorage), and geolocation services (Maps API).

BrainStation
July 2024 - Sept 2024

- Completed coursework in Data Science, Machine Learning, Python, Pandas, and MySQL.

High School Diploma | Preparatoria Uno UADY
2010 - 2013

Certificates



coursera
Meta
9 Courses
Introduction to Front-End Development
Programming with JavaScript
Version Control
HTML and CSS in depth
React Basics
Advanced React
Principles of UX/UI Design
Front-End Developer Capstone
Coding Interview Preparation
Nov 27, 2025
Jose Eduardo Meza Canul
has successfully completed the online, non-credit Professional Certificate
Meta Front-End Developer
This 9-course program prepares learners for an entry-level career as a front-end developer.
The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

coursera
Meta
8 Courses
Introduction to Mobile Development
Programming with JavaScript
Version Control
React Basics
React Native
Working with Data
Principles of UX/UI Design
Capstone (React App)
Dec 8, 2025
Jose Eduardo Meza Canul
has successfully completed the online, non-credit Specialization
Meta React Native
You will earn a Coursera certificate on completion of the Meta React Native Specialization. To achieve this, you will need to successfully pass all graded assessments throughout each course, as well as the Capstone project in which you will build a mobile app using React.
The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
